

the composite fire door collection

Fully certified, stylish and secure

Fire Door solutions from Hurst Plastics.

Fire services attended 59,130 building fires in the year ending April 2014, that's an average of 162 building fires in Great Britain every day, with more than 9,100 fatalities or casualties from those fires. That's around 25 a day.

More than three quarters (80%) of all fire-related fatalities occurred in dwelling fires - including private homes, social and affordable housing. There were 39,139 dwelling fires in 2013-14 and 260 fatalities from those fires.¹

Fire doors are an essential part of a building's passive fire protection system, helping to divide a building into individual fire compartments to reduce the spread of fire.

...When choosing your fire door supplier - leave nothing to chance.

Hurst Plastics understand that we need to offer more than just a good product, but also back it up with great service and unbeatable performance. We believe we have developed a package that will support you and deliver results, at every step, from initial specification through to contract completion.

Here's how we can help you at every stage:

- **Initial enquiry:**

We provide dedicated, nationwide technical support and advice, helping you navigate through specification and regulation requirements.

- **Quotation:**

Our commercial team provide timely and comprehensive estimations and quotations and are readily available to answer any questions or queries.

- **Pilot Doors/Samples:**

As required and made to your specific requirements and ideal for product presentations and trials to tenants, householders, specifiers and contractors.

- **Marketing/IT Support:**

Our specialist in-house marketing and IT team can assist with any additional information, leaflets, tenants choice forms, samples, swatches etc.

- **UK Manufacturing:**

All fire doors are manufactured in our factory in the UK. We are committed to quality and service as evidenced in our BSI certified quality systems.

- **Full UK distribution:**

Deliveries are made via our own vehicles from our factory to your premises or site and are fully traceable online, via HurstLive, our online business portal.

- **Installation:**

We are the manufacturer. We don't survey or install as we don't want to compete with you! Of course, technical installation support is always available.
